Portsmouth, VA 23704

- ✓ Managed projects, market expansions, and mergers, valued at over \$10 million for the likes of Sentara Health Plans and Elevance Health (formerly Anthem Inc.)
- ✓ Established and managed enterprise-level risk management and portfolio reviews for the Department of Veterans Affairs (VA) overseeing IT investments of approximately \$3.5 billion.
- ✓ Managed a business process re-engineering project that resulted in a 70% reduction of documentation burden for project managers across the VA, resulting in approximately \$10 million in annual cost savings.
- ✓ Led an enterprise budget assessment task that resolved over \$300 million in funding discrepancies for the VA.
- ✓ Developed enterprise-level policy that contributed to a software development on-time delivery rate of above 80%.
- ✓ Led training development, training implementation, software implementation testing for a department-wide cloud roll-out at the Department of Justice.
- ✓ Developed and implemented a Capital Planning and Investment Control (CPIC) Service at the Department of Interior (DOI); the Service effectively managed investments valued in excess of \$140 million.
- ✓ Delivered full-scale Network Engineering and Cybersecurity support services including: Migrations, system installations, configurations, and administration.
- ✓ Managed acquisitions, configuration of IT-related equipment and provided Help Desk tier 1, 2, and 3 support.
